“ *Tim your mom was one of kind, her love for you and your family was easily seen by her pictures and comments. She was a very straightforward matter of fact person who never met a stranger. Her love and devotion to God was noted by all she talked to and all who knew her. The love and care she gave to Charles in his illness was commendable and constant all signs of her knowledge of the scriptures and what a christian wife should be. We loved talking to her and Charles in times past, the loving banter between them was so funny you couldn't help but smile. They had two completely different personalities but that was what made them special. We will miss our friend Aubrey as will all that knew her.*
