“ When Glyn retired from USN, I helped pack his classroom. We discovered a treasure trove of awards, tucked away in file cabinets, in drawers and plastic bins, as if they were the least of his concerns. He was more interested in motivating his students towards great things. He also encouraged me to give a "Sparkplug Award" each year to the student who instigated ideas for others. I will miss Glyn and his collection of Safari hats among other things.

“ Mr. Burton was a kind and connected colleague who welcomed me to the school when I first arrived. He always made sure to greet me and anyone else he passed, and share a little exchange. I didn't work closely with him, but I appreciated his gentlemanly presence in our halls. Merci beaucoup, Glyn!

“ Mr. Burton is awesome. He saw value in all of us as his students. He prepared us for life. He took four of us to Memphis to see Tennessee games, multiply years. We had a blast and I'll never forget it.

“ Hi, my name is Elvis Umstead. Mr. Burton was the best teacher I ever had. If you couldn't learn under him something was wrong. He was our senior sponsor All of our class loved him. Class of 1977. RIP

“ Mr Burton was a fabulous and fantastic teacher and friend during my years at Clarksburg High School. He made learning fun and explained in great detail. It was his love for numbers and math that made algebra exciting for me, I went on to college a few years after graduation to earn my Bachelor of Science degree in Accounting. I loved numbers and he was a huge inspiration. Praying for his family and the many lives he touched.

“ Mr. Burton was the greatest teacher I ever had the pleasure of learning from. His knowledge and wisdom was limitless. We discussed all the science's , civic's , music & even religion. He never forced his views. He could see things from your side and offer a solution, no matter the problem. When I listen classical music to this day, I still think of you. You where right, it can help you find the answers. GODSPEED MR. BURTON. 🙏

“ Mr. Burton was a mathematical genius and a supremely talented teacher. He would not give up on us slow learners, even if it meaning demonstrating 3 or 4 different techniques to solve an equation. Talent aside, Mr. Burton was a good man, who changed lives for the better. I count myself very fortunate to have been his student. Thank you, Mr. Burton.

“ I'm truly saddened to learn of Mr. Burton's passing. He was one of the most remarkable teachers that I ever met. On second thought, he was one of the most remarkable human beings I've ever met. Yes, he taught algebra, geometry, chemistry, etc., but he taught even more. Lessons in kindness, empathy, understanding and patience were woven into every class. Not only did he make learning fun, he made you want to learn more, and to become a better person while doing so.

“ Mr. Burton was a great teacher and a wonderful person full of life and encouragement for his students at Clarksburg High especially for me! The little extras he would do for his students not only added the joy of attending school but making a greater bond between us as students. He made learning a way to share and care for others. His nephew, Ronnie, joined us on some of our field trips and became one of my friends as well. Ronnie, I am so sorry for your loss. Please call if you ever need me. Your family has been in and will continue to be in my thoughts and prayers. ~ Sharon Bridget Hedgepath

“ *Mr. Burton was my teacher at Clarksburg High School . He was a young teacher not many years our senior. He was a very inspiring teacher that cared about his students doing good. He had the ability to keep your attention so I really wanted to learn . I wasn't the sharpest crayon in my class but somehow his teaching style mixed with fun I managed B's in his classes . He gave me the confidence I needed to go on to JSCC and Union University after graduation. He left a mark on every kid that he taught and will be greatly missed by many.*

“ Me Burton was a great teacher, but my fondest memories were the summers he ran a youth program at Clarksburg Park for kids from all counties to come play games, ride bicycles and eat hot dogs and snacks whether you had money or not, boy or girl, black, white or Hispanic it didn't matter! I'm sure this world at that time wasn't perfect and problems existed but to us kids playing together we knew nothing about racism or political hate! Our hearts were pure and our friendships were real! It's those friendships then that will see us through until it's our time to go HOME! He taught us so much about everything! I know so many just like me who loved this man!
