“ Dear James,

We're deeply saddened to hear of your passing, but grateful that we had the chance to make music together not too long ago—especially during such difficult times, with lockdowns and your declining health.

We're so glad we were able to record your song Merry Christmas Elvis and, more recently, Rock 'n Roll Stomp. It was a truly special experience for us.

We hope you're in a wonderful place now, filled with great, danceable music. And we like to think you're reunited with your beloved wife—and maybe even jamming with your musical hero, Elvis Presley.

*With love from your Dutch friends,
Ton & Maarten*

Rest in peace, James McQueen
