“ *We have so many awesome memories of Jerry. We played together before he moved to Florida. I so loved his voice, and he was such a talented musician. But I adored Jerry's funny , and witty personality. We had a great time playing music and getting together during practices. We kept in touch after he moved to Florida, and we moved up North. The years went by quickly, but a phone call every so often kept us both up to date on our lives. We moved back to TN and we all connected once more. It was a great reunion. I adored Jerry. He was a big Teddy Bear. He will always have a piece of my heart!!*
