“ Kathleen was always 100% on every Master Gardener project that she was involved with. She was one to take on leadership roles as her time permitted. She would contact me from time to time to get my advice on Master Gardening happenings and sometimes asking me to volunteer for a project. I appreciated her honesty and her respect for her ancestry. She will be missed. May her Family celebrate her home going as an act of the Almighty! I send my condolences and sympathy to her Family. God Bless!
